## Urge President Obama to Support Increases for NIH

Join advocates across the U.S. in asking President Barack Obama to make research to improve health a national priority and support robust funding for the National Institutes of Health.

To coincide with National Medical Research Day on Wednesday, October 21, the [ResearchMeansHope.org](http://ResearchMeansHope.org) campaign, Research! America and other groups are rallying advocates to contact the White House this week in support of significant annual increases for NIH.

Now is a particularly important time for President Obama to hear from research advocates because he is working with his administration to determine the FY 2011 budget priorities. Take action and write to [President Obama now!](#)
